

## Klever - Bug #10271

### Bridge can not upload large job archives

04/15/2020 12:23 PM - Evgeny Novikov

#### Description

Bridge either uploads them very slowly that is an obvious performance regression or even hangs completely. Anyway we need to fix this issue before releasing Klever [3.0](#).

In addition, I suggest to increase a default timeout in "klever/deployments/systemd/conf.d/klever-celery.conf" from 15 minutes to 24 hours like we already did for handling server requests.

#### History

##### #1 - 07/02/2020 03:11 PM - Evgeny Novikov

- Status changed from New to Resolved

Vladimir fixed the issue in branch *bridge-jobs-upload*. So, the large archive was uploaded ~12 times faster. Now it takes ~7 minutes to upload an archive of large enough lightweight jobs. The branch is under testing.

##### #2 - 07/03/2020 11:14 AM - Evgeny Novikov

- Status changed from Resolved to Closed

I tested the branch and revealed no errors, so, I merged the branch to master in [827bbd31b](#). I would like to add that uploading an archive of job for which original sources were already uploaded takes ~2 times less time.
