

Klever - Bug #10431

Missing verifier input files for lightweight verification results

07/14/2020 09:09 PM - Evgeny Novikov

Status:	Closed	Start date:	07/14/2020
Priority:	Immediate	Due date:	08/04/2020

Description

Before Bridge kept verifier input files for lightweight verification results if the corresponding option was switched on when starting a job decision. Now one has to use the heavyweight mode to get the necessary data.

History

#1 - 07/14/2020 09:16 PM - Evgeny Novikov

BTW, Pavel found out that the data is stored by Bridge and one can get it through downloading files for competition. But there are not links from leaf reports to verifier (CPAchecker) pages where users can download individual archives like it was before.

#2 - 08/04/2020 02:41 PM - Vladimir Gratinskiy

- % Done changed from 0 to 100
- Status changed from New to Resolved
- Due date set to 08/04/2020

Download buttons for leaves are implemented in branch "bridge_fix_10431".

#3 - 08/05/2020 04:08 PM - Evgeny Novikov

- Status changed from Resolved to Open

I like this solution and suggest to add such the button for leaves of heavyweight verification jobs as well. It was always inconvenient to go up to find this useful data. You can remain the link on the verifier (CPAchecker) page as well.

#4 - 08/10/2020 05:02 PM - Evgeny Novikov

- Status changed from Open to Closed

The requested extra feature was implemented, so, I merged the branch to master in [e2b8cf872](#). Starting from it everybody will be able to download verifier input files directly from Safe/Unsafe/Unknown pages (of course, this is possible when a corresponding setting is switched on during a job solution start up).
