

Klever - Feature #10491

Avoid numerous warnings about missed sources and code coverage

09/08/2020 11:59 AM - Evgeny Novikov

Status:	Closed	Start date:	09/08/2020
Priority:	Urgent	Due date:	09/17/2020
Assignee:	Vladimir Gratinskiy	% Done:	100%
Category:	Bridge	Estimated time:	0.00 hour
Target version:	3.0		
Published in build:			

Description

By default Klever does not provide models and code coverage for headers. This is normal, but there are annoying pop-up warnings. I suggest to show these warnings instead of missed sources or in addition with them in case of missed code coverage. Besides, Bridge reports internal server errors for missed sources that are absolutely useless information in logs and in the console where Bridge is running.

History

#1 - 09/17/2020 12:47 PM - Vladimir Gratinskiy

- % Done changed from 0 to 100
- Status changed from New to Resolved
- Due date set to 09/17/2020

Implemented in branch "feature_10491".

#2 - 09/17/2020 01:48 PM - Evgeny Novikov

- Status changed from Resolved to Closed

Everything works well from my point of view, so, I merged the branch to master in [ede352a42](#). Users will not see excessive error messages in the interface and in log files.
