

Klever - Feature #10570

Support generating multiple environment models per a EMG run

11/10/2020 02:41 PM - Ilja Zakharov

| | | | |
|---|------------------|------------------------|------------|
| Status: | Closed | Start date: | 11/10/2020 |
| Priority: | Urgent | Due date: | |
| Assignee: | Ilja Zakharov | % Done: | 0% |
| Category: | Tasks generation | Estimated time: | 0.00 hour |
| Target version: | 3.0 | | |
| Published in build: | | | |
| Description | | | |
| This requires changing VTG and existing implementation of verification tasks status tracking. EMG should also allow generating several models and their processing by a EMG translator. | | | |

History

#1 - 11/23/2020 02:35 PM - Ilja Zakharov

- Status changed from New to Resolved

Implemented in multimodels.

#2 - 11/24/2020 02:00 PM - Evgeny Novikov

- Status changed from Resolved to Closed

- Category changed from Infrastructure of Core to Tasks generation

We tested and it seems that all previous functionality works as it was before. I merged the branch to master in [762216355](#). Let's see on cases when multiple environment models will be necessary.
