

## Klever - Feature #10658

### Suggest working source trees automatically

01/12/2021 07:26 PM - Evgeny Novikov

<b>Status:</b>	New	<b>Start date:</b>	01/12/2021
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Evgeny Novikov	<b>% Done:</b>	0%
<b>Category:</b>	Infrastructure of Core	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.1		
<b>Published in build:</b>			
<b>Description</b>			
Working source trees allow to show and to use relative paths to source and object files. Unfortunately, they cannot be determined automatically in the general case but it seems that we can consider minimal common parts of paths to input/output files to compilation commands as a first approximation of them. Most likely, it will be enough for most projects.			

### History

#1 - 01/19/2021 02:43 PM - Evgeny Novikov

- Target version set to 3.1

Let's do this in Klever [3.1](#).
