

Klever - Feature #10742

Allow to weave in models with their aspects

03/05/2021 05:38 PM - Evgeny Novikov

Status:	Closed	Start date:	03/05/2021
Priority:	Urgent	Due date:	
Assignee:	Evgeny Novikov	% Done:	0%
Category:	Tasks generation	Estimated time:	0.00 hour
Target version:	3.1		
Published in build:			
Description			
Sometimes, e.g. when models use macros from original program sources and these macros are instrumented by model aspects, it may be necessary to weave in models with their aspects. At the moment models are passed just through C back-end.			

History

#1 - 03/05/2021 05:42 PM - Evgeny Novikov

- Status changed from *New* to *Resolved*

I implemented this in branch *support-model-weaving*. To leverage this one needs to write something like:

```
"models": [{  
  "model": "linux/arch/mm/ioremap.c",  
  "options": {"weave in model aspect": true}  
}]
```

#2 - 03/09/2021 03:04 PM - Evgeny Novikov

- Status changed from *Resolved* to *Closed*

The branch passed tests, so, I merged the branch to master in [5446d51](#).
