Target version:		Spent time:	0.00 hour
Detected in build:	svn	Published in build:	
Platform:			

Description

For driver:

```
linux-3.8-rc1 32_7a drivers/media/v4l2-core/videodev.ko ldv_main6_sequence_infinite_withc  
heck_stateful
```

ETV renders indirect function call

```
err = func(file, cmd, parg);
```

in line 2401 of v4l2-ioct.c.prepared as

```
(*func)(file, cmd, parg).
```

Neither curly bracket nor indentation of the following code after the call are present. The corresponding error path (ErrorPath.txt) is attached.
