Description

If an access mode's name starts with a lower-case letter, the following failure occur:

build:

```
[javac] Compiling 11 source files to C:\SVN\microtesk\microtesk\dist\gen\bin
[javac] C:\SVN\microtesk\microtesk\dist\gen\src\java\ru\ispras\microtesk\model\mips\mode\IMM16
.java:27: error: class imm16 is public, should be declared in a file named imm16.java
[javac] public final class imm16 extends AddressingMode
[javac]           ^
[javac] C:\SVN\microtesk\microtesk\dist\gen\src\java\ru\ispras\microtesk\model\mips\mode\IMM26
.java:27: error: class imm26 is public, should be declared in a file named imm26.java
[javac] public final class imm26 extends AddressingMode
[javac]           ^
[javac] 2 errors
```

History

#1 - 04/03/2014 02:20 PM - Alexander Kamkin

Раньше имена режимов начинались с большой буквы. Изменил на буквы на маленькие. Файлы не были удалены (Windows). В них записалась новая информация.

При пересборке нужно удалять старые файлы.

#2 - 04/14/2014 02:01 PM - Andrei Tatarnikov

- Status changed from New to Resolved

- % Done changed from 0 to 100

Fixed in r1875.

#3 - 04/18/2014 02:49 PM - Alexander Kamkin

- Status changed from Resolved to Closed

- Published in build set to 140417
