History

#1 - 12/04/2014 10:28 AM - Sergey Smolov

- Subject changed from [solver] boolean numbers casting into bit vectors to [solver] boolean expressions casting into bit vectors
- Assignee set to Andrei Tatarnikov
- Target version set to 0.3

At solver level it is needed to cast boolean expressions to bit vectors of size 1 only when operation code is "of bitvector-defined category", like BVAND, BVOR and so on.
Otherwise, do nothing.
