

That's funny :). Bug is fixed in a couple of minutes.

```
locationExpr  
  : locationVal (DOUBLE_COLON^ locationExpr)*  
  ;
```

replaced with

```
locationExpr  
  : locationVal (DOUBLE_COLON^ locationExpr)?  
  ;
```

**#6 - 01/17/2020 03:33 PM - Alexander Kamkin**

- Target version changed from 2.2 to 2.5
- Assignee changed from Andrei Tatarnikov to Alexander Kamkin

**#7 - 01/27/2020 01:26 PM - Alexander Kamkin**

- Published in build set to 2.5.1-beta-200127
- Status changed from Resolved to Closed
- Category set to nML Translator
