

MicroTESK - Bug #5987

Handling situations when TestBase fails to generate test data (e.g. constraint is UNSAT)

05/27/2015 11:30 AM - Andrei Tatarnikov

Status:	Closed	Start date:	05/27/2015
Priority:	High	Due date:	
Assignee:	Andrei Tatarnikov	% Done:	100%
Category:	Test Engine	Estimated time:	0.00 hour
Target version:	2.2	Spent time:	0.00 hour
Detected in build:	svn	Published in build:	150605
Platform:			

Description

The situation when TestBase fails to provide data for a test situation should be handled in the following way:

1. A warning message explaining the reason must be printed.
2. Some default data (e.g zero) must be provided. Leaving a resource (register) uninitialized is incorrect.

Now MicroTESK prints an abrupt message and leaves the resources uninitialized.

History

#1 - 06/05/2015 08:16 AM - Alexander Kamkin

- Status changed from New to Resolved

Random data are provided.

#2 - 06/05/2015 04:59 PM - Andrei Tatarnikov

- Status changed from Resolved to Closed

- Published in build set to 150605
