

Klever - Feature #7424

Add tests for common API implementations

07/26/2016 04:13 PM - Evgeny Novikov

Status:	Closed	Start date:	07/26/2016
Priority:	Urgent	Due date:	
Assignee:	Evgeny Novikov	% Done:	0%
Category:	Testing	Estimated time:	0.00 hour
Target version:	1.0		
Published in build:			
Description			
At the moment we have tests intended for checking correctness of rule models. Some of them of course use common API and we test corresponding implementations implicitly as well. But the most of common API implementations aren't tested at all. I expect several dozens of new test cases to be added to the rule specifications testing set.			

History

#1 - 07/28/2016 12:34 PM - Vitaly Mordan

Implemented in branch mav_features.

#2 - 07/28/2016 09:50 PM - Evgeny Novikov

Are you sure that you developed these tests in that branch?

#3 - 09/06/2016 04:35 PM - Evgeny Novikov

- Assignee changed from Vitaly Mordan to Evgeny Novikov

- Priority changed from High to Immediate

Tests are required without no doubt.

#4 - 12/27/2016 09:57 AM - Evgeny Novikov

- Priority changed from Immediate to Urgent

No progress during 4 months - this issue was incorrectly marked as immediate.

#5 - 06/22/2017 09:26 PM - Evgeny Novikov

- Category changed from Rule specifications to Testing

#6 - 08/31/2017 10:17 AM - Evgeny Novikov

- Target version set to 1.0

#7 - 11/03/2017 05:28 PM - Evgeny Novikov

- Status changed from New to Resolved

In [556d16f0](#) I added 67 unique test cases that examine API and implementation of common models. From now any new common model needs to be accomplished with new corresponding test cases.

#8 - 11/27/2017 04:14 PM - Evgeny Novikov

- Status changed from Resolved to Closed

I merged branch tests to master in [f96d83aa](#).
