<b>Target version:</b>	0.4	<b>Published in build:</b>	
<b>Detected in build:</b>	svn		
<b>Description</b>			
<p>JUnit test case classes that implement ISampleConstraint interface should implement getExpectedVariables method. In fact, this method's returned value is ignored everywhere.</p> <p>Probably we should either to made our tests more solver-specific (AFAIK, this problem comes from the fact that Z3 and CVC4 solvers return different values on same constraints), or change this method somehow.</p>
