<b>Description</b>			
Although preset tags were supported a long ago they weren't filled thus far. Now we know a bit better what we need, so now it's time to do that. In addition we need to clarify generic conceptions and the terminology so that everything will be at the right place.

- Blocked by Feature #9396: Allow creating tags with the same names at different branches added

**#9 - 12/04/2020 06:47 PM - Evgeny Novikov**

Before [#9396](#) we cannot add concise and valuable preset tags. Moreover, it can break all existing tags.

**#10 - 12/16/2020 08:28 PM - Evgeny Novikov**

- *Status changed from New to Resolved*

Everything is implemented in branch *bridge\_9396*.

**#11 - 12/16/2020 08:32 PM - Evgeny Novikov**

- *Status changed from Resolved to Closed*

I merged this branch to master in [2625e7311](#) after CI passed test cases. This change is not backward compatible. Moreover, you should migrate your marks manually using preset tags as most as possible.
