

Klever - Feature #8435

Feature # 8434 (Closed): Get rid of job classes

Always start up the same Core components

09/18/2017 01:22 PM - Evgeny Novikov

Status:	Closed	Start date:	09/18/2017
Priority:	Urgent	Due date:	
Assignee:	Ilja Zakharov	% Done:	0%
Category:	Infrastructure of Core	Estimated time:	0.00 hour
Target version:	2.0		
Published in build:			

Description

A long ago I assumed that we will have a lot of job classes for various types of target programs, and for each such class it will be necessary to specify a corresponding component chain. Now I think that it would be better to always start up the same Core components while specify target program types in a job configuration. Core components will find appropriate plugins. That was already done for generation of verification and verification tasks. So, now this should be implemented for high-level components as well.

History

#1 - 11/11/2017 02:40 PM - Evgeny Novikov

- Assignee changed from Evgeny Novikov to Ilja Zakharov

Recently Ilja considerably improved/refactored Core itself, so, he is familiar very well with the problem.

#2 - 05/23/2018 07:24 PM - Evgeny Novikov

- Target version changed from 2.0 to 1.0

#3 - 05/23/2018 08:53 PM - Evgeny Novikov

- Target version changed from 1.0 to 2.0

#4 - 09/03/2018 10:22 AM - Ilja Zakharov

- Status changed from New to Resolved

Implemented in klever-2.0.

#5 - 10/25/2018 09:16 PM - Evgeny Novikov

- Status changed from Resolved to Closed

Branch *klever-2.0* passed all tests and I merged it to master in [72be796e3](#) marked as *v2.0rc1*.
