

Klever - Feature #8436

Feature # 8434 (Closed): Get rid of job classes

Switch to configuration driven results processing

09/18/2017 01:26 PM - Evgeny Novikov

Status:	Closed	Start date:	09/18/2017
Priority:	Urgent	Due date:	
Assignee:	Ilja Zakharov	% Done:	0%
Category:	Results processing	Estimated time:	0.00 hour
Target version:	2.0		
Published in build:			

Description

A long ago I assumed that we will have a lot of job classes for various types of target programs, and for each such class it will be necessary to invoke specific results processing components of Core. Now I think that it would be better to do that in accordance with specified configuration options since this is a more flexible and generic approach.

History

#1 - 11/11/2017 02:41 PM - Evgeny Novikov

- Assignee changed from Evgeny Novikov to Ilja Zakharov

Let's Ilja will do this as well as [#8435](#).

#2 - 05/23/2018 07:24 PM - Evgeny Novikov

- Target version changed from 2.0 to 1.0

#3 - 05/23/2018 08:53 PM - Evgeny Novikov

- Target version changed from 1.0 to 2.0

#4 - 10/01/2018 04:48 PM - Ilja Zakharov

- Status changed from New to Resolved

Implemented long ago in Klever 2.0.

#5 - 10/25/2018 09:15 PM - Evgeny Novikov

- Status changed from Resolved to Closed

Branch *klever-2.0* passed all tests and I merged it to master in [72be796e9](#) marked as v2.0rc1.
