

## Klever - Bug #8442

### Names of components have been changed and tests and hardcoded names in Bridge should be updated

09/19/2017 07:12 PM - Ilja Zakharov

#### Description

I noticed some hardcoded names of components such as AVTG in the Bridge code. Since I have removed some components and renamed others it is better to update these references.

#### History

##### #1 - 09/19/2017 08:59 PM - Vladimir Gratinskiy

What are new names?

##### #2 - 09/19/2017 10:37 PM - Evgeny Novikov

I think that this issue is too broad because of several places in Bridge operate in accordance with Core component names. But all these places will be fixed step by step. For instance, AVTG references will likely completely disappear when progress calculation will be fixed.

I suppose to reject this issue.

##### #3 - 09/20/2017 12:00 PM - Evgeny Novikov

- Status changed from New to Rejected

- Assignee deleted (Vladimir Gratinskiy)

I think that the most of "improperly" hardcoded component names will disappear after fixing [#8149](#). Component names used in tests don't matter at all.
