

Klever - Feature #8494

Process extended format of violation witnesses

10/11/2017 10:57 AM - Evgeny Novikov

Status:	New	Start date:	05/11/2017
Priority:	Urgent	Due date:	
Assignee:	Evgeny Novikov	% Done:	0%
Category:	Results processing	Estimated time:	0.00 hour
Target version:	3.0		
Published in build:			
Description			
We already had a lot of issues regarding various printers of violation witnesses. And we will have them unless there will be the only printer of witnesses that will follow the extended format . Moreover, the new approach will allow to avoid changes with printing of violation witnesses in any static verification tools. Each of them will either strictly follow the extended format itself or their witnesses will be passed through the printer.

History

#1 - 08/17/2018 04:56 PM - Evgeny Novikov

- Target version changed from 2.0 to 3.0

I don't believe that we will be able to include this into Klever [2.0](#).

#2 - 01/25/2019 03:19 PM - Evgeny Novikov

- Assignee changed from Ilja Zakharov to Evgeny Novikov

Ilja will do a real job unlike us in near future.
