

Klever - Feature #8627

Allow forbidding checking final state

12/13/2017 10:31 AM - Evgeny Novikov

Status:	Closed	Start date:	12/13/2017
Priority:	Urgent	Due date:

Target version:	2.0		
Published in build:			

Description

One more trivial step towards checking C programs different from Linux kernel loadable modules is to have an option to forbid checking the final state. There is some code for which checking final state doesn't have sense while we still can check correctness rules assuming checking the final state for that code.

History

#1 - 03/05/2018 12:22 PM - Ilja Zakharov

- Status changed from *New* to *Resolved*

Implemented in 8066-abstract-translator.

#2 - 10/25/2018 09:17 PM - Evgeny Novikov

- Status changed from *Resolved* to *Closed*

Branch *klever-2.0* passed all tests and I merged it to master in [72be796e3](#) marked as *v2.0rc1*.
