

## Klever - Feature #8937

### Highlight JSON files syntax and check its correctness in the online editor

06/09/2018 11:34 AM - Ilja Zakharov

<b>Status:</b> Closed	<b>Start date:</b> 06/09/2018
<b>Priority:</b> Urgent	<b>Due date:</b>
<b>Assignee:</b> Vladimir Gratinskiy	<b>% Done:</b> 0%
<b>Category:</b> Bridge	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> 2.0	
<b>Published in build:</b>	
<b>Description</b>	
The most popular operation in Bridge is creating a new Job. On this stage a user has to modify JSON files to specify modules and rules to verify. Current online editor is a big step toward speeding up this process but to make it also convenient it is essential to highlight syntax and check correctness of JSON files also.	
Checking syntax can be either implicit or explicit (by pressing a button), but the first case is preferable.
