

Klever - Bug #9056

Exception when packages are not specified in configuration

07/02/2018 03:14 PM - Pavel Andrianov

Status:	Closed	Start date:	07/02/2018
Priority:	Immediate	Due date:	
Assignee:	Evgeny Novikov	% Done:	0%
Category:	Deployment	Estimated time:	0.00 hour
Target version:	1.0	Published in build:	
Detected in build:	svn		
Platform:			

Description

If section 'packages' is missed in configuration file, there is an exception

Traceback (most recent call last):

```
File "./deploys/install_deps.py", line 136, in <module>
main()
File "./deploys/install_deps.py", line 129, in main
args.update_python3_packages)
File "./deploys/install_deps.py", line 42, in install_deps
new_pckgs = get_pckgs(deploy_conf['Packages'])
KeyError: 'Packages'
```

History

#1 - 07/02/2018 03:19 PM - Evgeny Novikov

- Target version set to 1.0
- Priority changed from Normal to Immediate
- Assignee set to Evgeny Novikov
- Category set to Deployment

This may be treated as a regression since in [0.2](#) deployment scripts included package lists and disallowed to configure them.

#2 - 07/02/2018 04:12 PM - Evgeny Novikov

- Status changed from New to Closed

I added two more checks, so that now there are appropriate error messages rather than exception. I tested installation since changes touch just it, but skipped the rest of testing. The commit to master is [a9583c04](#).
