

Klever - Feature #9193

Continue sorting out sync:race tests

08/06/2018 01:08 PM - Evgeny Novikov

Status: New	Start date: 08/08/2018
Priority: High	Due date: 08/08/2018
Assignee: Pavel Andrianov	% Done: 0%
Category: Testing	Estimated time: 0.00 hour
Target version:	
Published in build:	
Description After #9099 there are still 13 C files in directory <i>bridge/jobs/presets/testing rule specs/tests/sync/race/todo</i> . Moreover, it seems that we need to clarify some ideal verdicts and preset marks as they are not correct at the moment. For instance, I noticed words <i>true</i> and <i>false</i> in variable names that may mean that corresponding unsafes are true and false correspondingly, while ideal verdicts and preset marks say that everything is perfect.

#5 - 08/06/2018 01:09 PM - Evgeny Novikov

- Follows Feature #9099: Update CPALockator added

- Start date changed from 08/06/2018 to 08/08/2018

- Due date set to 08/08/2018

#6 - 08/07/2018 05:17 PM - Pavel Andrianov

Yes, the moved tests should be removed from */todo* folder.

Ideal verdicts are also correct, as I think, except one case. Preparing an unsafe version of a benchmark I do not rename the variable. So, in the unsafe version there is a correct unsafe verdict for a variable *ldv_false_unsafe*.

#7 - 08/17/2018 04:53 PM - Evgeny Novikov

So, please, prepare a corresponding branch that does all the best.

#8 - 10/23/2018 07:02 PM - Evgeny Novikov

- Target version changed from 2.0 to 3.0

Let's do this later.

#9 - 01/25/2019 03:20 PM - Evgeny Novikov

- *Target version deleted (3.0)*

- *Priority changed from Urgent to High*

Although tests are very important, but let's do/fix them later.
