Target version:	3.0		
Published in build:			

Description

I implemented a rule, which replace spinlocks and mutexes with pthread_mutexes. The rule is used for generation sv-comp tasks for concurrency. Tests are also available, but they are based on tests for sync:race. The new rule is implemented in the branch svcomp-rule. It is convenient to have it in master, but the issue is not urgent.

History

#1 - 08/14/2018 06:19 PM - Evgeny Novikov

- Target version set to 2.0
- Priority changed from Normal to Urgent

As it is implemented already, it is not so hard to test it and to merge it to master.

#2 - 10/25/2018 09:09 PM - Evgeny Novikov

- Target version changed from 2.0 to 3.0
- Status changed from Resolved to Open

I forgot about this, but now it should be definitely rebased on top of the latest master as there are very many changes there.
