History

#1 - 10/25/2018 03:54 PM - Evgeny Novikov

- Blocked by Feature #9347: Notify schedulers about changes in jobs and tasks added

#2 - 05/16/2019 02:56 PM - Evgeny Novikov

- Assignee changed from Ilja Zakharov to Evgeny Novikov

Ilja is occupied for 1-2 weeks while we need this ASAP to move forward (until schedulers will switch to the new interface for receiving notifications on new jobs and tasks, I can't switch other components responsible for their decision).

#3 - 05/19/2019 12:03 PM - Evgeny Novikov

- Assignee changed from Evgeny Novikov to Ilja Zakharov

Unfortunately, the current implementation of interconnections between Bridge, schedulers and workers is very large and complicated. I suggest to simplify it as much as possible to avoid numerous tricky issues that we have had to fix often. So, a rather considerable part of schedulers and workers should be re-implemented. I started the job in branch *bridge-2.1*. It should be completed by the primary author.

#4 - 05/20/2019 07:41 AM - Evgeny Novikov

I renamed branch to *bridge-3.0*.

#5 - 07/15/2019 11:51 AM - Evgeny Novikov

I guess that the issue is solved in branch *scheduler-klever-3*, isn't it? Did you clean up configuration files from old stuff?

#6 - 10/28/2019 03:27 PM - Ilja Zakharov

- Status changed from New to Resolved

This was implemented and lives in *klever-3.0* branch currently.

#7 - 01/16/2020 05:02 PM - Evgeny Novikov

- Status changed from Resolved to Closed

In master.
