

Klever - Feature #9350

Update validation tasks that require function pointer analysis

10/26/2018 03:59 PM - Ilja Zakharov

Status: New	Start date: 10/26/2018
Priority: High	Due date:
Assignee:	% Done: 0%
Category: Preset jobs, marks and tags	Estimated time: 0.00 hour
Target version:	
Published in build:	
Description These tasks mostly required EMG models for timers and workqueues but as now we have these models one need to either set correct reasons for each why it cannot be verified or provide proper configuration of the verification tool with activated function pointer analysis.
