

Klever - Feature #9459

Feature # 8494 (Closed): Process extended format of violation witnesses

Generate error traces in a new format

01/25/2019 03:18 PM - Evgeny Novikov

Status: Closed	Start date: 01/25/2019
Priority: Urgent	Due date:
Assignee: Evgeny Novikov	% Done: 0%
Category: Results processing	Estimated time: 0.00 hour
Target version: 3.0	
Published in build:	
Description	
First of all, see the description of #9458 . Also, we plan to eliminate many redundant error trace transformations that sometimes break visualization of found warnings.

History

#1 - 09/18/2019 10:51 AM - Evgeny Novikov

- Status changed from New to Resolved

Except for minor issues this is done in branch *klever-3.0*.

#2 - 01/16/2020 05:03 PM - Evgeny Novikov

- Status changed from Resolved to Closed

In master.

#3 - 11/10/2020 11:12 AM - Evgeny Novikov

- Status changed from Closed to Resolved

I added support for all our existing extensions to violation witnesses in branch *extended-witnesses*. They need a new version of CPAchecker while currently corresponding functionality is in the [development branch](#). Bridge update ([#9458](#)) is also necessary.

#4 - 11/10/2020 11:12 AM - Evgeny Novikov

- Related to Feature #9458: Visualize a new format of error traces added

#5 - 11/26/2020 07:44 PM - Evgeny Novikov

- Status changed from Resolved to Open

Thanks to Pavel we understood that we do not support several notes per one edge though it is useful and it is mentioned in specification of extended violation witnesses.

#6 - 11/30/2020 07:16 PM - Evgeny Novikov

- Status changed from Open to Resolved

Multiple notes per one violation witness edge (error trace node) were supported in branch *extended-witnesses*.

#7 - 12/01/2020 09:22 AM - Evgeny Novikov

- Status changed from Resolved to Closed

Tests passed, so, I merged the branch to master in [d74545524](#).
